

EnvisionTouch

Self-configuring mobile app

Intuitive and effortless control

EnvisionTouch provides intelligent system control via an iOS or Android hand-held device. Suited to both residential and commercial control applications, multiple integrated systems can be easily controlled with single preset scenarios such as 'Welcome Home' or 'After Hours'.

EnvisionTouch self-configuring mobile app

Intuitive and effortless control

- **Self-configuring application** – Standardized templates and functionality reduce commissioning and installation time.
- **Effortless control** – Users can view current system status and make adjustments to lighting, HVAC, blinds and other equipment connected to the Philips Dynalite control network.
- **Control individual lighting channels** – Adjust standard light sources via sliders, with an option to control tunable white fixtures and RGB color settings.
- **Single-click control** – Recall predefined user preferences for lighting, blinds, heating and entertainment systems.
- **Available for iOS and Android** – Works on iPhone, iPad, iPad Mini, iPod Touch and a range of Android phones and tablet devices.
- **Simple Ethernet connection** – Requires a Philips Dynalite Ethernet Gateway and a WiFi router to connect to a Philips Dynalite System.
